When & how did you get started in racing? My grandpa raced and my dad both raced, so I grew up around it my whole life. It is all I have ever known.

How did you choose your car number: My grandpa's number was 111 and his name was also Max so we decided to do #111 in memory of him, instead of won11 like my dad.

What made you choose the FASTRAK division: It's a great division with great people running it and It's affordable. It makes it fun to go racing every weekend again.

Biggest accomplishment(s)/best memory(ies): I won the 2006 King of the Hill at Fall Fest at Challenger. Two national weekly championships. Two Northeast Touring championships. Six track championships. Forty-nine feature wins. Everything was in the last three years except the King of the Hill.

Goals in racing: To be half as good as my dad.

Future plans: The FASTRAK deal is really all I can do. The only way I could go open late model racing is if I got a big sponsor.
